

by **Pixtim**

for UNITY

QUICKLY CREATE CUSTOMIZABLE GAME LEVELS

CHANGE THE MATERIALS ON YOUR ENTIRE SCENE IN A FEW CLICKS

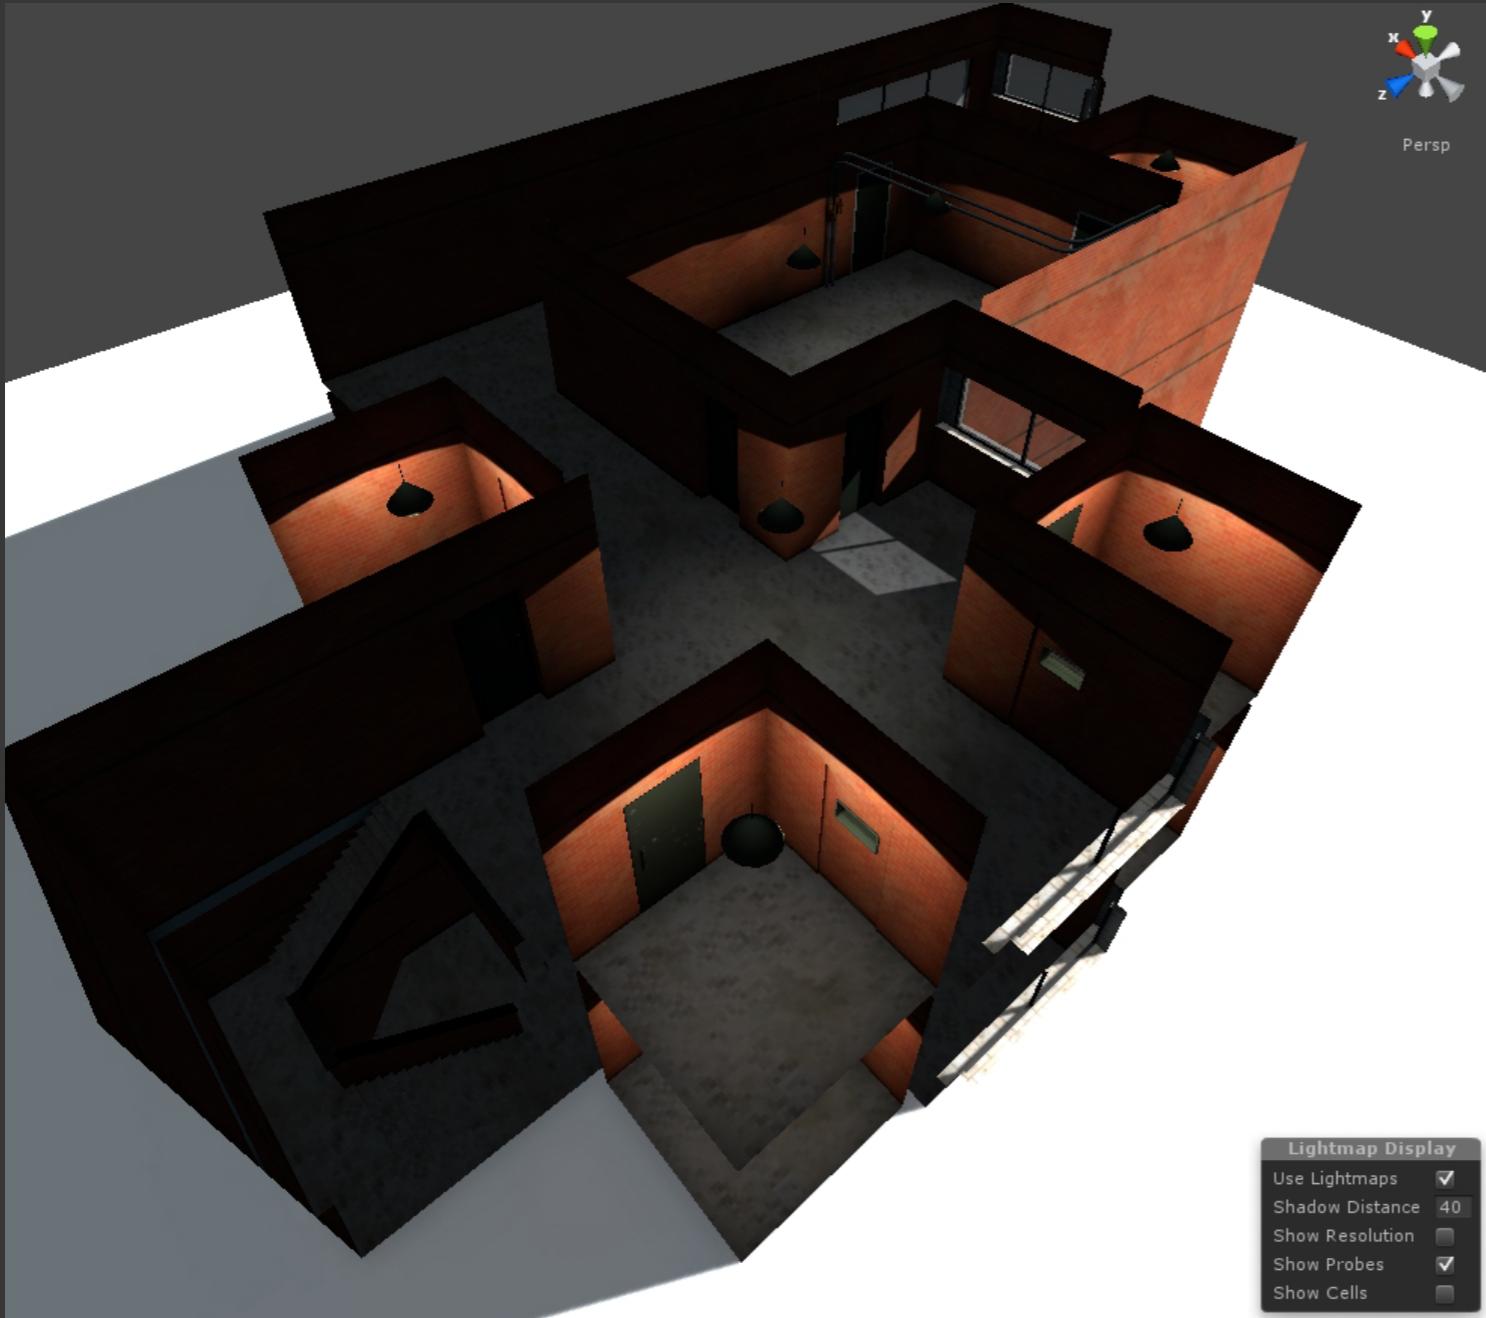

WITH MONOBLOC UV UNFOLDING CUSTOMIZE YOUR SCENE WITH YOUR OWN TEXTURES

This lite version contains a small part of the original package makeYOURlevel.
It is however sufficient to make the scene on the screenshots.

In the full version of makeYOURlevel, you can make your own rooms and corridors. MakeYourlevel is also equipped with elements for making stairs and lifts with all floors as you want (the elevator of makeYOURlevel is simple. For a fully customizable model, see our other package: makeYOURelevator).

To best use this lite version, we recommend that you carefully read the documentation for the full version and watch the video tutorial.

Whether you buy or not the full version, we hope you will enjoy using makeYOURlevel_LITE!
